Monitor indoor areas with this practical Easy IP-Cam Socket Camera. The TX-57 receives power directly from the socket and can thus take clear video recordings from different angles in the room and record sounds with the help of the built-in microphone.

### **Hidden surveillance**

Ideal for viewing and monitoring rooms and other indoor locations. The camera has built-in microphone for audio recordings.

### **High quality resolution**

This mini camera has FullHD video resolution 1080P (1920x1080), 30fps. 2MP CMOS image sensor.

### **Day/night catching**

Camera TX-57 has IR LED for night lighting & ambient light sensor, which allows to catch someone during the day or night. Also there is a PIR sensor with ~6 m working distance.

### **Easy to use**

Easy power supply over a socket - no power cable needed
